

Georgetown new energy storage project

Overview

The Georgetown Energy Storage Project continues to make waves in renewable energy integration, achieving 92% operational efficiency in its latest phase. As cities worldwide seek sustainable power solutions, this Texas-based initiative demonstrates how lithium-ion battery systems can stabilize grids. Georgetown Solar Inc. is developing a 230-megawatt (MWac) solar project located 11 kilometres south of Carseland, Alberta in Vulcan County. The Project encompasses approximately 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland. The facility consists of a 278 MW utility-scale. Participant Involvement Program Mailbox, Georgetown and Westbridge Investco, LLC (a lending entity established by Leyline Renewable Capital, LLC) (the “Lender”), Georgetown may borrow up to a maximum of the U. dollar equivalent of CAD\$4,830,000 (e gap between development and construction on our flagship project Georgetown Solar PV.
