

Italian energy storage project construction

Overview

Two new energy storage projects are set to be developed in Udine (25 MW) and Ferrara (486 MW). The Ministry of the Environment and Energy Security (MASE) has issued two single authorizations (AU) for the construction of battery energy storage systems (BESS) with a combined capacity of. Rondissone, Italy – Trina Storage, the global energy storage solutions provider and a business unit of Trinasolar, has signed its first large-scale battery energy storage project in Italy with Aer Soléir, an Irish company based in Dublin specialized in the development, construction, and management. Two new energy storage projects are set to be developed in Udine (25 MW) and Ferrara (486 MW). Just under 4GWh is completed and/or operational, with a further 2GWh+ under construction. The demand for energy storage in Italy has been clear over the last half a decade, with solar and wind generation. The European Commission has approved, under EU State aid rules a €17. 7 billion Italian scheme to support the construction and operation of a centralised electricity storage system. The measure contributes to the achievement of the objectives of the European Green Deal and 'Fit for 55' package, by. Milan, Italy — October 09, 2025 — Enfinity Global Inc.
