

# Latest hybrid outdoor telecom cabinet for community use

## Overview

This Hybrid Outdoor Telecom Enclosure is a fully integrated, weatherproof cabinet designed to house telecom power systems, batteries, and network equipment in outdoor environments. Featuring a robust steel structure with IP-rated protection, it ensures reliable operation against dust, rain, heat. Hybrid outdoor cabinet is designed to provide a compact solution to replace classical POP (Point of presence) stations for Telecom applications. This solution includes OLT, 48 DC power supply, fiber ODF modules for subscribers, EMS (Environmental management system) system and Heatexchanger & AC. Available in different configurations, Delta OutD cabinets are designed to protect equipment from external threats in all climates from the tropics to the arctic. In addition to traditional cooling methods, Delta's new hybrid cooling options revolutionize the cost structure of thermal management. These cabinets protect critical equipment from extreme weather, UV rays, and high winds, ensuring uninterrupted performance.
